# THE 12-YEAR-OLD CHANGE

WITH CLASS TEACHER  
**GIANNINA ZLATAR**

One of the Waldorf teacher's tasks is to meet the children where they are in their development. The twelve-year change is an important threshold in the growing process. It is the end of childhood and the preamble for adolescence.

We refer to it as the beginning of the "Middle School Years". Ms. Zlatar (grade 6) will help us understand these developmental challenges and how the curriculum at Steiner fits these physical and emotional changes. From geometry to the age of wonder and beyond: a guiding pathway for students toward their high school years.
