MATH MORNING
FROM TIMES TABLES TO COMPUTER SCIENCE

WITH DAN MARSCH

Join us for an exploration of the journey of mathematics, from basic times tables to the world of computer science. This engaging presentation will highlight how math is woven into everyday learning and its importance in developing critical thinking and problem-solving skills.

Dan Marsch will provide insights into how mathematics unfolds across all areas of the school. He will address any questions regarding the school's mathematics curricula and program, emphasizing both the essential pedagogical values and the year-by-year progression of the discipline within the overall school framework.

FRIDAY, JANUARY 24 @ 8:30 AM

UPPER SCHOOL LIBRARY
